- Offers potent antioxidant protection against free radicals.
- Features a variety of key nutrients for optimal health.
- Delivers the antioxidant capacity of approximately 13 servings of fruits and vegetables in just four ounces.
- Provides nutritional benefits for all ages.
- Contains antioxidant polyphenols, which studies suggest may play an important role in long-term health.

ESSENTIAL FACTS

- In excess, free radicals produce harmful oxidation that can damage cell membranes and accelerate the aging process.
- MonaVie's freeze-dried açai has a higher ORAC score than any other fruit or vegetable tested to date, boasting an antioxidant capacity more than 15 times higher than blueberries and more than 20 times higher than raspberries (*J Agric Food Chem. 2006, 54(22):8604-10*).
- Health experts agree that a diet rich in a variety of antioxidants helps fight the signs of aging and is essential to maintaining good health.

Powerful antioxidants found in fruits—like those in MonaVie—help prevent cellular damage by neutralizing free radicals.
